

## VEXOR® MK3 INERT (APAC)

The VEXOR® MK3 Full Axis unit includes a flip-top actuator and is accurate up to 20-feet and can fire from any position ... even upside down! The MK3 Full Axis will deploy vertically downward, or from a horizontal position. It can also deploy vertically upward, or from a horizontal position.

This product is available as a VEXOR® Inert training spray, which fire just like our active sprays, but is designed specifically for training and doesn't include any capsaicin. Container is filled with 100%water. It is designed for regional Demo and Training Use.

### **Features Use Instructions:**

To spray, press top actuator with finger or thumb. Hold for 1 second while making an upward movement across the subject's face and eyes from ear to ear. Evaluate for compliance and re-dispense a second 1 second spray if necessary. Unit can be sprayed from any position.

## **SPECIFICATIONS: VEXOR® MK3 FULL AXIS INERT**

### **Size & Weight**

Can Size: MK3 (APAC)  
Length: 4 1/2 inches (11.4 cm)
